# Premium and Natural Packaging Products

From the classical wooden and cardboard versions to more creative or premium leather ones, these packaging products are only samples of what could be manufactured upon request of our customers. Made of natural materials, they dissolve rapidly in nature and do not pollute or otherwise damage the environment unlike other alternatives. Our products do not include any chemical treatment and are 100% natural, compostable and biodegradable, while offering high-quality presentation of your products. All our products are made in Turkey, a member of the **European Union Customs Union** (EUCU) and whereby you could benefit from a special tariffs treatment, unlike other far-east countries. Furthermore, shipping will be less costly and more eco-friendly too, with a lighter carbon-footprint.

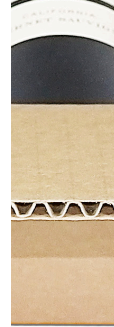

100% Compostable  
and Biodegradable

Eco-friendly  
and Certified for  
Food Products

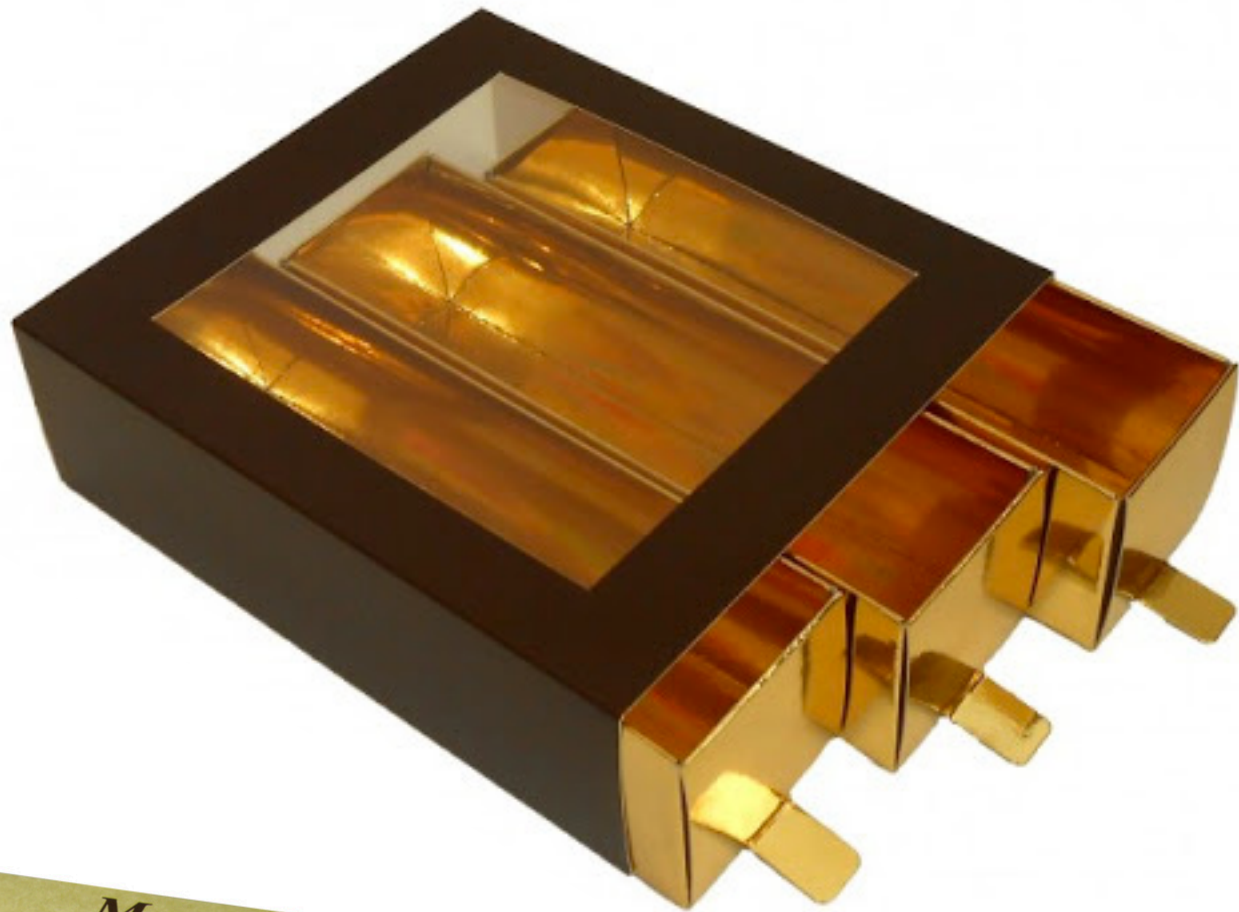

**Give a Second Life...**  
 Imagine wine boxes that can be more than a wine box. With creative solutions, our boxes can get a second life while preserving the nature. Being a cutting board, magazine organizer or a bird box, your wine boxes can get a second life...

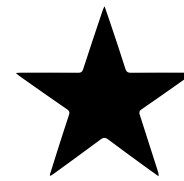

# GRUNGEMAMA®

The concept was born out of Nathalie's deep desire to share her high street fashion tastes with a community, a desire to share her unique, unconventional style which breaks fashion rules, a style which is both boho and rock and which is perfect for a free woman who's a bit nonchalant and has a grunge spirit. The brand offers new pieces daily, a selection of most wanted items and is constantly fresh, a permanent revolution powered by Nathalie's crazy and infectious energy. Our founder is a free woman, a grunge mum, an entrepreneur. Grungemama is the embodiment of a free, romantic-rock, extravagant and discrete woman who is both instinctive and spontaneous.

Available Lengths: 9cm - 12cm - 15cm

## Wheat or Reed Stalk Straw Series

Straws made of wheat stalk or reed stalk are 100% natural and eco-friendly. They are compostable and biodegradable. They are also gluten-free as gluten enzymes are not contained in the straw of wheat. Finally, unlike their paper alternative wheat or reed stalks do not absorb liquids or soften over a short period of time.

### ECO-WS-01

Wheat stalk.  
Length: 15cm  
Radius: 4-6mm

### ECO-WS-02

Wheat stalk.  
Length: 20cm  
Radius: 4-6mm

### ECO-RS-01

Reed stalk.  
Length: 16cm  
Radius: 6-8mm

### ECO-RS-02

Reed stalk.  
Length: 20cm  
Radius: 7-10mm

## Final Words...

Our products are eco-friendly and produced in Turkey, meaning you can have a clear conscience about your potentially negative impact on nature for a sustainable future, while benefiting from the EUCU treatment. In addition, our catalogue is just a showcase of the kinds of products we could supply and is open for your imagination. Be it wood, cardboard or other eco-friendly products, we are here to assist with your packaging needs.

As you know, in terms of packaging, the sky is the limit within certain constraints but do not limit yourselves on what you see and think of what you can imagine for your products and give us a shout.

Reach us on a call or drop us an e-mail (details on the back of this catalogue) to discuss how we can help you make savings, thanks to our competitive pricing and help your creativity while preserving nature. Our team is waiting!

Multiple Consulting's N-Pack brand, globally markets and sells hygienic and eco-friendly packaging solutions.
